## **How the Good-Life Gourmet Experience Works**

Good-Life Gourmet, originating in 2008 as a high-end catering service, now expands to gourmet sandwich shops, the first two located in Irvington and Scarsdale, both offering sandwiches, soups and salads -- along with Good-Life Gourmet Meals for take home, all rotating each day.

### **How it works:**

In Irvington, the menu for rotating gourmet sandwiches, soups and salads will be announced via text to customers who join the Good-Life Mobile Family.

One gourmet dinner entrée with all accompaniments will also be offered daily for take-home.

Customers can place their order and, before pick-up, pay for it via mobile phone.

In Scarsdale a wider variety of sandwiches, soups and salads is offered for either take-out or to be enjoyed on-premise in a pleasant dining area. Here also, specialty gourmet dinners with accompaniments for take-home are offered each day.

All gourmet sandwiches and carry-away dinners are prepared by Chef/Owner Eric C. Korn and his team with only the freshest, most wholesome ingredients, grown locally in season.

“It’s like having your own private chef at home,” says Korn, “but now you can enjoy this luxury with great convenience, ordering and paying with your mobile phone.”
